RE: LECO Supply

It is my pleasure to recommend LECO Supply as a provider of supplies for your industry. Coastal Custodial has been working exclusively with LECO Supply since prior to 2004. During this long relationship, the LECO team has always been very responsive to our needs and worked diligently to provide us with options on cleaning supplies with a mind for savings and yet the best product availability. Our business provides a broad range of custodial services through out the Puget Sound and South Sound Region. LECO has always been responsive to making sure our needed supplies are delivered to ALL of our sites through out this vast area.

As time has passed and new equipment or supplies have become available, LECO has been proactive in providing us with information about the new products and providing odd items as we come across the needs.

I fully support LECO and the staff in the services and supplies they provide and would not hesitate to recommend them to anyone looking for their services.

Please do not hesitate to contact me for further information.
