Lewis County Chemical:

I am writing to let you know how much I appreciate the service that I have received from your company. My sales representative, John Chase, has always treated me very well. John does a good job of communicating with me about my supply needs, and any potential changes in delivery times or backorders, which I appreciate very much. I have to say that there have been very few backorder issues since I started buying my supplies from your company.

John has always gone out of his way to inform me about new or improved products that he thinks may help me in my business.... he shows a keen interest in my dry cleaning and laundry business and has always been proactive in getting answers from his suppliers for me when I need them.

Jim Voeller

Naturally Clean Dry Cleaning
