

As the dry cleaner at Western Laundry, I would highly recommend Leco Supply for all of your dry cleaning and laundry supplies! They are affordable and are very diligent about staying in touch with their customers on a regular basis. They are great about personalizing customer accounts and offering new products based on the types of supplies purchased. Not only is Leco a great vendor but the sales reps have extensive knowledge about the different detergents and spotting chemicals they sell! Leco Supply goes above and beyond when it comes to making sure their customers are happy!
